- Medical grade solution.
- Supports Monitors up to 8.16Kg.
- Highly adjustable.
- Billet Aluminium construction.
- Can be cleaned with "Hospital Grade" solutions (*10,000 parts bleach per 1,000,000*).

The ErgoMounts Ultra 510 Monitor Desk Mount is a medical grade mounting solution. The ergonomic arm is built using state of the art manufacturing processes designed and engineered for years of reliable service in theaters, wards and clinical areas. This desk mount offers a minimum of 100mm built in height adjustment. The Ultra 510 head unit provides up to +/-45° of tilt adjustment.

The arm can be rotated a full 360° around the top of the Ultra 510's desk riser which is available in several different heights: 1" (25mm), 3" (76mm), 5" (127mm) and 7.5" (127mm). Higher desk risers mean that any obstacles or items on the desk can be cleared with ease.

When not in use the arms of the Extend and Long Reach Ultra 550 models can be folded on top of one another to save additional desk space.

The Ultra 510 Desk Mount is compatible with all VESA 75mm x 75mm, VESA 100mm x 100mm screens weighing up to 8.16Kgs.

This product can be wiped clean with hospital grade solutions (10,000 parts bleach per 1,000,000) making them also ideal for areas where they are going to be exposed to large amounts of dirt and dust such as workshops or production lines.

Manufactured to order...

All of our Medical Grade Mounting Solutions are manufactured to order by our partners in the United States. These are then air freighted to us before being hand inspected and assembled by our talented team of technicians at our headquarters in Hampshire, United Kingdom. This allows us to offer 100's of combinations on our products as well as bespoke design but at a much shorter lead time to our competitors who often rely on Far East manufacturing.
