

GTp

With a unique contemporary design, the GTp is ideally suited to high profile locations such as retail or leisure environments, where form is equally as important as function.

Features

The GTp is a versatile unit, which can be used for a number of different purposes; as an information point, for digital way finding, or interactive advertising. With a range of screen sizes and a 16:10 LCD capacitive or Projected Capacitive (flush) touch sensor, the GTp provides an eye catching and highly effective platform for many types of software.

Construction

Manufactured from aluminium and powder coated to a RAL colour of your choice, the GTp can also be branded by means of engraving or application of a digitally printed vinyl.
