

The XTw wall mounted kiosk

With a modern, contemporary design, the XTw is ideally suited to high profile locations such as retail or leisure environments, where form is equally as important as function. Wall mounted to achieve a minimal footprint and a range of optional peripherals, this stylish, adaptable kiosk is ideally suited to a wide range of applications.

Features

This wall-mounted kiosk is a versatile unit, which can be used for a number of different applications such as digital wayfinding, automatic check- in or payment. It contains an 18.5 inch 16:10 Capacitive or Projective Capacitive (flush) touch screen. The XTf provides an eye catching and highly effective platform for many types of software.

Construction

Manufactured from aluminium and powder coated to a RAL colour of your choice, the XTw can also be branded by means of engraving or application of a digitally printed vinyl.
